# DNCC - Mobile App Requirements

---

## Building Form

---

Add a new action after “Add Supervisory” — called **Update Building Info** .

- It should be **an exact replica of the website’s building form** .  Reference GitHub Resources

-  **Main Repository:**

[https://github.com/base-imis/web\\_app/tree/v1.2.0-tools](https://github.com/base-imis/web_app/tree/v1.2.0-tools)

-  **Building Code Logic:**

[https://github.com/base-imis/web\\_app/blob/v1.2.0-tools/public/js/functions.js](https://github.com/base-imis/web_app/blob/v1.2.0-tools/public/js/functions.js)

-  **Frontend Building Form:**

[https://github.com/base-imis/web\\_app/blob/v1.2.0-tools/resources/views/building-info/buildings](https://github.com/base-imis/web_app/blob/v1.2.0-tools/resources/views/building-info/buildings)

-  **Containment Form + Logic:**

[https://github.com/dncc-imis/web\\_app/tree/master/resources/views/fsm/containments](https://github.com/dncc-imis/web_app/tree/master/resources/views/fsm/containments)

## Backend References

-  **Building Controller:**

[https://github.com/base-imis/web\\_app/blob/v1.2.0-tools/app/Http/Controllers/BuildingInfo/BuildingController.php](https://github.com/base-imis/web_app/blob/v1.2.0-tools/app/Http/Controllers/BuildingInfo/BuildingController.php)

-  **Containment Controller:**
